

Frank Kulaszewicz
Executive Speaker
Vice President and General Manager, Control and Visualization

Frank Kulaszewicz is the vice president and general manager of the Control and Visualization Business, which is part of the Architecture & Software reporting segment of Rockwell Automation. In this role he is responsible for global business management and development for the controller, visualization and networking software and solutions, which are based on the Rockwell Automation Integrated Architecture™. Prior to accepting his current position in October of 2007, Kulaszewicz was business manager, Global Drives Systems, a position he had held since 2003.

Kulaszewicz joined Rockwell Automation in 1986 as an associate application engineer. He progressed steadily through the Drives Systems organization, and in 1993 was named industry specialist for that group. In 1994 he became the project manager for Applied Systems Engineering, Drives Systems. In 1999, he was appointed product line manager for Drives Systems.

Kulaszewicz earned a bachelor's degree in electrical engineering from The Milwaukee School of Engineering, and a master's degree in business administration from Marquette University, both in Milwaukee, Wis.
