

Biography
Brian Nass
Chair, Mayo Clinic Global Products and Services
Mayo Clinic

As the Chair of Mayo Clinic Global Products and Services, Brian Nass is the enterprise-wide administrator for strategy and development of Internet, print and telephonic based products and services that further Mayo Clinic's patient care, education and research strategic interests.

Nass joined Mayo Clinic in 2004 as the Chief Operating Officer of Lab Operations before serving as the section head of Process Improvement in Quality Management Services.

Prior to his time at Mayo Clinic, Nass had 24 years of multi-functional experience in the technology industry, most recently as Chief Technology Officer at XIOTech Corporation in Eden Prairie, Minn., where he was responsible for extending the company's technical vision and strategy, including product and services roadmaps.

Nass also played pivotal roles with Seagate Technology in Rochester, Minn.; Western Digital in Rochester, Minn. and Irvine, Cal.; and the IBM Corporation across multiple sites in the U.S., Japan and Europe.

A graduate of Iowa State University (BS, Electrical Engineering), Nass holds two master's degrees (Industrial Engineering and Mechanical Engineering) from Stanford University. He currently serves as an adjunct faculty member at St. Mary's University and in 2008 earned the Mayo Clinic Leadership Excellence Award.
